# Digital Transformation in Customs and Taxation-A Catalyst for Economic Resilience

## Call for High-Quality Book Chapters

### SCOPE OF THE BOOK

This book intends to provide a thought-provoking platform for researchers, research scholars, practitioners, students, and industrialists to publish their research on the topic of customs and taxation. The chapters in this book primarily focus on recent trends, challenges, methods, models, case studies and structural issues of the global digital transformation of customs and taxation.

## LIST OF TOPICS (BUT NOT LIMITED TO)

- Introduction to Customs and Taxation
- International Trade Agreements, Tariffs and Trade Barriers
- Customs Valuation Methods, Principles, Classification and Harmonized System
- The Impact of Artificial Intelligence on Customs and Taxation
- Customs Duties, Taxes, Procedures, Clearances Enforcement and Compliance
- Customs and Taxation in E-commerce
- Customs and Taxation for Special Trade Zones
- Customs and Tax Planning, Disputes and Appeals
- International Cooperation and Customs Administration
- Customs and Taxation Reform and Modernization
- Transfer Pricing, Customs Implications, Customs Audits, Investigations, and Penalties
- Customs and Taxation in the Digital Era
- Case studies in Customs and Taxation
